We're looking for the most original use of an Apple since Eve.

What in the name of Eve do people do with Apple Computers?

Eve /aka/

JdaP /aka/ Jane Crayton

Produced the creative insights, inspired from the use of an apple computer, which changed Sheldon HighSchool news forever.

There was a time in my not so distant past.

Where the Apple of desire entered my consciousness. In 1989 I lived with my father, who used Apple Computers to create graphics and edit video digitally for his broadcast career.

During this time, I was interested in my high school newspaper, as a young photographer, journalist, and graphic designer (in the making).

I engaged my progressive insight to catalyst

the use of computers for the layout of our school newspaper. I mastered Adobe Pagemaker and Photoshop as a result of my fathers influence, and passed on my knowledge of layout and design via computer to the class and my professor.

As a result of this digital integration we transformed our school newspaper into modern media

As a result of my dedication and pixel integration, I recieved a Special Acheivement Award for Pioneering the first School in Eugene, Oregon to have students use Apple Computers for design and layout of a school newspaper.

I will never forget how I have been e_ffected by the Apple Computer for life, and have found it to be a way of life.

A New Benefit to Womankind

“From oneWoman to Another” is this reality, a place where I have to sit here, and try to be proper, and pretty, and unintelligent, with my lips puckered and glossed. This hint to Women, about beauty and healthcare is tainted. “if you are to be pretty then you can not be dirty or intelligent.”

Curads

Curious about the vast number of rolls I play as a woman? Recently I have been dispaired with the rolls that I am expected to play. The way I am expected to act, because of who or what the observer sees me as, from their view point.

Carry my plight I can see this digital insight. Its with the wisdom of binary feminism I fight. Judge_ mental this domain is nonsequential, suck my left tit, until you get it. This techno_hoe, will not be giving you a blow.

Cure me of my questions, supress this obcession to dominate the techno_state of my conveyent compact modern image of a woman.

Cold I am left here without my ability to unfold this domain of places where the virus of ignorance breeds. This virtual realty of sexuality, and e_commerce of digits over clits, satisfaction my detachment from your harrassment of women in technology.

Curads

Pat. App. For *Made Entirely of Curity Products*

Curity products have filled a vast number of needs, but until recently there was one which we despaired of meeting. Then one of our women workers made the first Curad, and we felt that we had exactly what was wanted. But we tested and retested, until we felt sure that in Curads we had solved this very difficult problem.

Curads are sanitary napkins made in a continuous, compact roll of six. They are made of Curity absorbent gauze and Curity absorbent cotton. They are adequate in size and comfortable. They are thoroughly absorbent.

Curads are made to be used only once, so the question of laundry is not a factor. They are convenient in traveling, because of their compact form.

Curads are sold in all the better stores, on the notion counters, and in the corset departments. If your dealer cannot supply you, we will gladly send you a trial order in a plain wrapper. For each roll of six wanted, please enclose fifty-six cents with your order. Canadian price, 70c per roll, delivered.
