## Career Goals

Currently my career goals entail working on projects, that promote STEM education and policy. I am looking for a fun, creative work environment, where I can utilize my skills in art, design, and technology to their fullest potential. I like creating interactive solutions for educational public outreach, and I enjoy working directly with youth in experiential teaching mediums. My goal is to work with people that inspire me to learn and grow while developing a progressive atmosphere of collaborative innovation in STEM education.

## Employment History

Web Designer/ Interactive Multimedia Developer (1996 - Current Contract)

Crayton Communications, crayton.com

I have designed/developed several print and interactive web based projects for clients. I have used a variety of software applications to complete these projects including (Fireworks, Flash, Director, Illustrator, Photoshop, DreamWeaver, InDesign)

Boulder, Colorado  
Instructor (Summer 2009, Spring 2010, Summer 2010)

Science Discovery University of Colorado at Boulder

During the summer of 2009, I worked as a part-time instructor for Science Discovery Summer Classes and Wilderness Camps. I am currently planning to work for Science Discovery for the summer of 2010.

Boulder, Colorado  
Web Designer (2007/2008 Contract)

Zybek Advanced Products

Providing web, graphic and video work for Zybek media projects. Performed custom animation development of products for web promotion. Provided photography and video pre and post production of products and services for web development.

Longmont, Colorado  
PrePress Operator, (2007 Contract)  
Staffing Solutions

I have been contracting for Staffing Solutions on behalf of Holden Marketing Group. I am responsible for taking camera ready client art and making sure it is ready for press, by preparing digital files so plates can be made from them.

Boulder, Colorado  
Digital Media Specialist, ( Feb 2004 - Nov 2005)  
lasp.colorado.edu/sdc/ (Section: multimedia/interview)

LASP (Laboratory for Atmospheric and Space physics) University of Colorado, Boulder — Student Dust Counter, New Horizon Mission to Pluto; Upper Atmosphere Sounding Rockets University of Colorado, Boulder. Responsible for video production, post production and formatting video for a custom built Flash application that plays streaming video on the web. I was also responsible for giving tours of the lab and demonstrations for educational public outreach projects.

Denver, Colorado (1999)  
Macromedia Flash Designer/ Web Designer  
MicroStaff Corporation

I have worked for MicroStaff Corporation on a contract basis. I have worked on behalf of MicroStaff Corporation for various clients, performing various interactive related projects. I used a variety of applications to complete these projects including (PhotoShop, Freehand, Flash, DreamWeaver, Go Live, BBedit, and Fetch).

Graphical and Technical Localization Editor (1998-1999)  
Mindbank Consulting Group of Denver, L.L.C. & Delta Translation International

I worked as a contract employee on behalf of Mindbank for ILE (International Language Engineering) and Delta Translation International. At ILE and Delta, I used a variety of computer workstations and applications including (Photoshop, Quark Xpress, PageMaker, FrameMaker, and Director) to complete graphical, and technical localization editing for various translation projects.

Graphic Designer/Typography (1996 - 1997)  
Sundance Printing Company

My job included layout and design of many printed materials. I also provided quotes on jobs, answered phones, invoiced jobs, and performed film stripping and shooting of plates for printing. I used a variety of software including but not limited to: (PhotoShop, Quark Xpress, PageMaker, FrameMaker, Illustrator, Freehand, Acrobat )

## Related Experience

Eye of the Heart Wildlife Refuge [EHWR] Rollins Ville, Colorado (2010)

Currently I serve on the board of directors for EHWF, my focus is on educational public outreach, media and event fundraising.

RUST-E [Radically Urban Sustainable Technology Exploration] (2009 - Current)

Is an arts organization created to catalyst creative critical action in ecology and technology ethics. (2009 - Current) Currently, I am working with professionals in Boulder, Denver and Chaffee Counties of Colorado to create the first ever RUST-E festival at Mt. Princeton Hot Springs. I serve as the president of the Board of Directors for this organization, which aims to foster a relationship or responsibility between nature and technology with stainability as its medium.

Media Production Consortium (2007 - Current)

Currently I volunteer as one of the lead coordinators for the Media Production Consortium, a University of Colorado at Boulder student group that focuses on promoting experimental arts events, providing and promoting interdisciplinary media and technology through the Arts and Sciences on CU-Boulder's main Campus.

dorkbot303 (2006 - Current) dorkbot.org

Currently I volunteer as the lead coordinator for the dorkbot303 chapter of Colorado. Heading up the interactive artist series which happens monthly in Denver/Boulder showcasing electronic artists from around Colorado.

Janedapain\_New Media Artist (2004 - Current) janedapain.net

This is my artistic site, where I list my current events as a performer, blog about current happenings in my life, and post artwork, articles, poetry and video for display. This is one of my electronic portfolio's, a network of art. I also perform live as an audio/visual artist, and work as a vj for other audio artist. I create custom interactive A/V installations for events and parties. Custom animations and video production for individual projects and events. Design, promotion and marketing.

Denver Museum of Nature and Science (2003 - Current) dmns.org

I have been a volunteer at the DMNS on Sundays for the Space Odyssey exhibit as a Galaxy Guide since it opened in 2003. This experience offers me extended education and practical application of astronomical knowledge. I love to share my passion of science with the visitors and staff at the museum. Giving tours and demonstrating technology that applies simple scientific methods is important for educational public outreach. I am also a member of the live interactive dome group which is bringing experimental audio/visual performances to the Gates Planetarium at DMNS and developing new tools and software for sound reactive visuals in the submersible environment.

Boulder County Art Alliance (Spring 2009) bouldercountyarts.org

As a volunteer grant writer for the BCAA, I successfully wrote several grants which help them to archive their mission of arts for Boulder County.

Transmediale, Art and Culture Conference (January 2009) transmediale.de

During the 2009 Deep North Conference in Berlin, I helped to facilitate the Mediakompetenz workshop in streaming media. The streaming workshop aimed to teach participants how to use open-source and free software to stream and archive the conference sessions online.

## Awards

Astrobiology Magazine Cover Art; (2005) Biennial meeting of the NASA Astrobiology Institute

Sheldon High School, Eugene Oregon Special Achievement Award (1987) School Newspaper; from past-up to digital methodology.

## Education

University of Colorado, Boulder

Bachelors of Arts (Media Studies), (expected May 2010)

Arapahoe Community College

Associate Degree of General Studies (Multimedia) Dec 2001

## Technical Knowledge

I have experience with maintenance, upgrades and configuration of workstations and servers. Experience in technical upgrades (memory, motherboards, cards etc.) (Mac OSX, XP, and Linux). I also have expert knowledge of audio/visual equipment and configurations for live performance and conferences.

## Software Knowledge

Adobe CS3, Flash, DreamWeaver, Go Live, Fireworks, PhotoShop, Illustrator, Freehand, Painter, InDesign, Quark Xpress, PageMaker, FrameMaker, Director, X-Res, Hot Metal, After Effects, Maya, Bryce 3D, Premier, FinalCut Pro, QuicktimePro, Powerpoint, Reason, Ableton Live, Soundtrack, Sound Edit, Grid, Keyworx, Resolume, Arkaos, Microsoft Office, etc... I have knowledge of PageMaker, Quark Xpress, FrameMaker, Illustrator, PhotoShop, etc. in Asian Foreign Languages.

I have many samples of my artwork and design skill for viewing. Please contact me to make an appointment.
